Newsletter from the Wellness & Kitchen Garden Programs Ocean Knoll Elementary School - Encinitas, California

# What's new in our garden?

## **PLANTING VEGGIES:**

Early in the month plant seeds in the ground or containers for fall and winter vegetables such as spinach, radishes, scallions, carrots, and lettuces. There's still time to transplant greens such as kale and collards, broccoli, cauliflower, and cabbage.

NATIVE GARDEN: Don't forget to take a look at our California Native Plant Garden. You might be surprised by how brown and scraggly those plants look after the beautiful flowers they bore in the spring, but these hardy plants are adapted to survive in a very warm dry habitat. With no summer water they have to find ways to conserve energy and moisture by shriveling and even drying up their leaves, keeping only a bit of green inside the stems. Some plants may look dead, but pay attention to them, and see what they do as the cool winter rains come. Be impressed when you find the large leafy Toyon and Lemonade Berry shrubs, as well as some small delicate looking plants that are still green and even flowering right now! They are the tough super heroes of this plant community.

You can start planting your fall-winter flowers from seeds and also a few summer flower this month. (Ageratum, Alyssum, Bedding Begonia, Cosmos, Impatiens, Marigold, Petunia, Portulaca and Vinca Rosea).

**PLANT CARROTS:** September is one of the best months to plant carrot in Southern California. The warm soil will help the seeds germinate rapidly and then the cooler weather of late autumn will help them to mature.

**PLANT SNOW PEAS:** Snow peas also called sugar peas are a delicacy and prime ingredient in Oriental dishes. Keep the soil moist, they will be ready for harvest in mid- November.

## THE GREEN TEAM

Our Green Team leaders for the first semester are Lilia Welsch and Mackenzie **House.** If you are interested in joining the Green Team, please contact your class garden volunteer and meet our leaders they will share their vision and passion with you.

We would like to recognize students who are living a healthy lifestyle and for others to learn from their example. Tell us why you think you or a friend should be next month Green Star Student, please send us a sustainability, we would like to share paragraph (nathaliebruey@sbcglobal.net).

opportunities for our students, at lunch the Green Team (3rd-6th) will be responsible for our lunch organic waste and recycling program as well as our composting and care for our school garden. We appreciate these simple advice on things you can do to students efforts during their lunch hour with make your life a little greener (or such an important responsibility in helping various topics including Green our school to be the best it can be!

# Being Healthy, Fit & Happy 10 Ways To Be Healthy In Your Life

As friends with a shared interest in useful information on green living. Please share with us your knowledge Ocean Knoll is proud to offer leadership and the best local information on green living. Once a month, we will share our findings in emails sent to our subscribers. Our emails offer Products, Food & Health, Home & Garden, Style & Leisure, Transportation, Policy and Events.) If all goes well, our newsletter will make you a bit happier and

# **Wellness Program**

our city and school a bit greener.

Each day there will be a before school run and walk program, 7:30-7:55am. Parents and children are encouraged to participate together. Monthly evening seminars for parents and children.

In addition to the run/walk program

Monday morning: Bootcamp

Tuesday & Thursday morning: Yoga

Thursday after School: **Bootcamp** 

Friday morning: Martial Arts

Want to be elected next month Fitness Star Student, please send us your paragraph telling us how you are living healthy.

Simple Advice:

- 4 Eat fresh vegetables and fruits every day.
- Drink at least 2 quarts of water daily. Forget the sodas and other sugary drinks
- 6 Transform stress by emphasizing positive emotions.
- 7 Eat breakfast every morning before school start.
- Participate in the Ocean Knoll Wellness program activities every day and bring your family.
- 2 Try not to use your car one day a week, and walk to school and grocery shops instead. You will reduce the air pollution in our city.
- **?** Walk to school or ride your bike every day. This is the best way to get fit and in the best shape of your life.

- **8** Get enough sleep at night.
- **9** Switch off the TV during the school days and read a book instead.
- 10 At home cook and eat dinner with your family every evening. Use fresh ingredients and healthy ingredients. Talk about your day and share what you learn at school with your parents. 01

# What is new in our kitchen?

There are many good reasons to buy food that is in season. Most importantly it means that the food has not travelled long distances to get to you and it also ensures that your food is as fresh as it can be. At Ocean Knolls we are creating a Kitchen space in our garden, where students will learn how to cook healthy meal with fresh organic produce from our garden.

# Mediterranean Tomato Salad Recipe

### **Ingredients for 4 salads:**

- 8 medium tomatoes
- 1/3 cup (80 ml) balsamic vinegar
- 2/3 cup (160 ml) olive oil
- 5 shallots (if you don't have shallots, you can use 1 medium-sliced onion instead)

## Method

- Cut the tomatoes into thick slices (about quarter of an inch thick, which is just a bit under a centimeter). Remove the cores from the slices.
- Arrange the slices on a serving plate.
- Cut the shallots into pieces. For an authentic recipe, they should be coarsely cut, but many people prefer finely cut. Sprinkle the shallots over the tomato slices.
- Mix the vinegar and olive oil together and then pour over the tomatoes.
